2 - Secondary Transition Offense

2

2 - Secondary Transition Offense

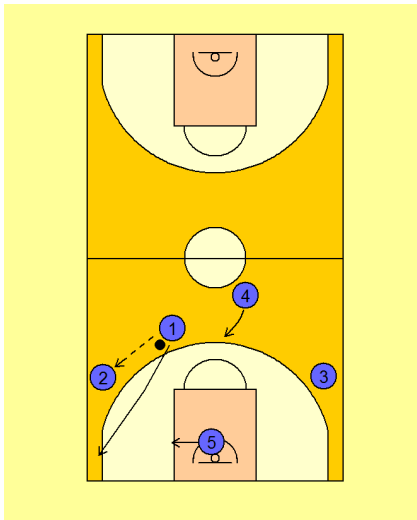

4 man takes the ball out and inbounds the ball. He/she will trail the ball up the court.

1 brings the ball along the side of the middle lane (highlighted). The 4 will read the 1 and trail up the opposite side of the middle lane as diagramed.

5 man runs the middle lane to the rim.

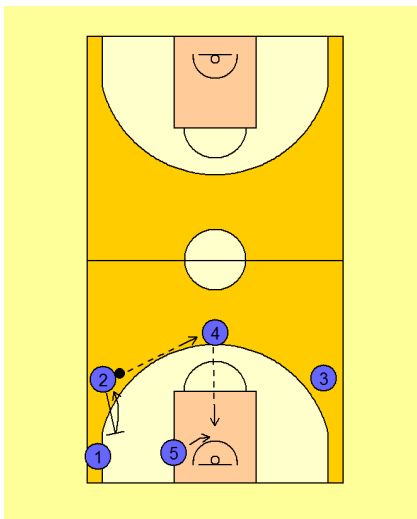

2 & 3 run the outside lanes (these positions are interchangeable).

1 passes to the strong side wing and fills out to the strong side corner

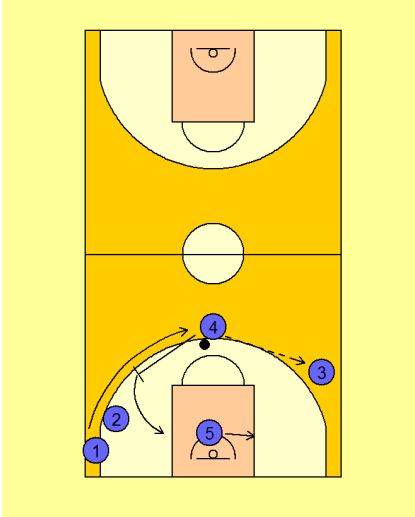

4 man trails in to the top of the 3 point line

5 pops/flashs to the strong side post block

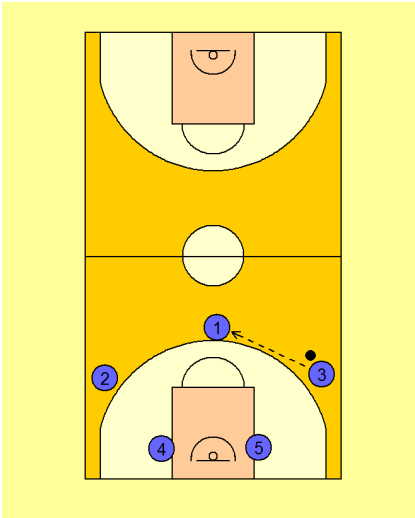

As the 4 man trails to the top of the 3 point arc the 2 reverses the ball to the 4 and sets a down screen on 1 in the corner. 2 will pop back out to the wing after setting the screen.

On the pass 5 posts up under the basket for the high-low pass

If the post pass is not on then the 4 passes to 3 on the opposite wing and sets a stagger screen for the 1 coming off the screen from 2 and then rolls to the low post.

5 flashes to the low post on the pass

3 will look for the Post feed, if that is not on then reverse the ball to 1
